

**American Jersey Cattle Association  
National All-Jersey Inc.**

USJersey Breeders:

The USJersey organizations continue to provide uninterrupted service during the COVID-19 pandemic, including on farm service provided by our area representatives and type trait appraisers.

We are committed to protecting the health and safety of our employees and our breeders and as an organization have implemented best practices to help prevent and reduce the transmission of COVID-19. All USJersey staff are required to follow the guidelines below:

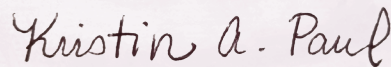

- Daily health assessments.
- Practice social distancing, being at least 6 feet from customers, while on the job.
- Wear face coverings, when required by state law, or in public settings when social distancing is not possible.
- Wash/Sanitize hands upon arrival and departure.
- Routinely clean and disinfect frequently used objects and surfaces.

We encourage each dairy to discuss these guidelines with our staff upon arrival. If your dairy requires additional safety measures, please notify the area representative and/or appraiser prior to arrival. Again, our goal is to ensure the safety of our staff and breeders while maintaining the highest level of service and providing a comfortable work environment.

Sincerely,

Neal Smith  
Executive Secretary  
Chief Executive Officer

Kristin A. Paul  
Director of Field Services
