Texas A&M Team Earns Silver Award at North American Intercollegiate Dairy Challenge

Syracuse, NY, March 30, 2009—A team of four students from Texas A&M University won a Silver Award in the North American Intercollegiate Dairy Challenge (NAIDC) held March 27 and 28 in Syracuse, N.Y.

A total of 29 teams from the United States and two from Canada competed in the eighth annual event, hosted by the Northeast Region NAIDC committee.

The team coached by Scott Holloway consisted of Neal Frerichs, LaGrange, Texas; Luke Gallegos, Dalhart, Texas; Katherine Maples, Sugarland, Texas; and Shay McDonald, Davis, Calif.

Dairy Challenge was designed by professionals from the allied dairy industry and university educators to bring classroom training to life in the real world for students preparing for dairy careers.

The Texas A&M team spent two days at the contest. On the first day, they combed through cow and farm management data, as well as financial records, then conducted an on-site evaluation. Later that day, they also interviewed the farm owner.

After identify opportunities to increase efficiency and profitability for the herd owner, the team presented its findings to a judging panel comprised of a dairy business owner and four experts in dairy nutrition, herd health, reproduction, and financial management. Teams were judged on their analysis of the operation, recommendations, and overall presentation.

Reflecting on this year's competition, reproduction expert and judge Dr. Ray Nebel from Select Sires Inc. said, "Besides being the best training of students for what they will face in the future, the Dairy Challenge contest brings together the whole dairy industry for a great common goal. The knowledge, excitement, enthusiasm, and teamwork displayed by the students at the 2009 Dairy Challenge made me feel good about the future of the dairy industry and the outstanding leaders it will have."

About Dairy Challenge

The mission of the North American Intercollegiate Dairy Challenge is to facilitate education, communication and an exchange of ideas among students, agribusiness, dairy producers and universities that enhances the development of the dairy industry and its leaders.

The 2010 national contest will be held April 8 through 10 in Visalia, Calif., with four regional contests scheduled for late fall 2009 and winter 2010.
