Peter H.B. Frelinghuysen Memorial Trophy - Sponsored by Ed Crotty, Columbus, NJ and presented to the exhibitor of the first place Senior Best Three Females.

27 - Premier Performance Cow - This class recognizes two cows in each class based on their total performance. Only cows placing in the top 50% of their respective class are eligible for this award. Cows are ranked on a 100-point scale based on three different measurements: (1) placing rank in class (50 points), (2) rank for genetic merit as measured by AJCA Jersey Performance Index™ (25 points), and (3) rank for production, as measured by USDA Yield Deviation (25 points). In the event of a tie on Premier Performance points, the tie will be broken by the cow's placing within the class.

The top two cows for performance points from classes 10 to 14 and 17 to 20 will be led out for this class. The first- and second-place Premier Performance winners from the National Jersey Jug Futurity are also eligible for this class, unless they are shown in the Open Show and fail to qualify (see rules for class 33). Premiums offered for class 27 are forfeited by any individual class qualifier that does not return to the ring for this class.

Cows qualifying for class 27 retain their placing rank points from their individual class, but are re-ranked for genetic merit and production. The Premier Performance Cow is the individual with the greatest number of accumulated points.

In the event of a tie on Premier Performance points, the tie will be broken: first, by the cows' placings within the original class that qualified them for class 27; second, by their rank for Yield Deviation within class 27; and third, by their rank for highest actual pounds of milk within class 27.

16 - Premier Performance Cow - BANNER

The class recognizes two cows in classes 1 to 4 and 7 to 10 based on their total performance. Only cows placing in the top 50% of their respective class are eligible for this award. Cows are ranked on a 100-point scale based on three different measurements: (1) placing rank in class (50 points), (2) rank for genetic merit as measured by AJCA Jersey Performance Index (25 points), and (3) rank for production, as measured by USDA Yield Deviation (25 points). In the event of a tie on Premier Performance points, the tie will be broken by the cow's placing within the class.

Cows qualified for class 16 retain their placing rank points from their individual class, but are re-ranked for genetic merit and production. The Premier Performance Cow is the individual with the greatest number of accumulated points. In the event of a tie on Premier Performance points, the tie will be broken: first, by the cows' placings within the original class that qualified them for class 16; second, by their rank for Yield Deviation within class 16; and third, by their rank for highest actual pounds of milk within class 16. Premiums offered for class 16 are forfeited by any individual class qualifier that does not return to the ring for this class.

Cash awards of \$27,191.50 and the **Sunny Day Farm Trophy**, sponsored by Sunny Day Farm and Her-Man Jerseys, Chester, SC will be presented for the 2015 Pot O'Gold Production Contest.

RULES**Eligibility to Purchase**

Animals in the Pot O'Gold Sale can only be purchased by juniors between the ages of 7 and 20 (inclusive) on January 1 of the sale year, who reside in the United States or Canada. A junior may purchase only one Pot O' Gold calf per contest year.

Related or unrelated youth may purchase an animal to be transferred to them in partnership. A junior may not purchase an animal consigned by a member of his or her immediate family.

Loss, death or transfer of ownership of any purchase before the record is complete will eliminate the heifer and owner(s) from the Pot O'Gold Production Contest.

Production Contest

Seventeen percent (17%) of the gross sales will be set aside in a Pot O'Gold Fund. This fund will provide cash awards for the owners of the 22 calves that complete the highest records ranked by total product value.

Testing Requirements

All heifers must be tested in a DHI herd owned by the purchaser, or the purchaser's parent(s) or legal guardian(s). In the event this is not possible, a written request to test the heifer in another herd must be made to the All American Executive Committee by December 31 of the year the heifer is purchased. In any case, the heifer cannot be tested in the herd(s) owned by her breeder and/or consignor.

DHI records will be confirmed by files obtained from the Council on Dairy Cattle Breeding (CDCB). If completed in Canada, records must be a form of test recognized by the American Jersey Cattle Association (AJCA) or Jersey Canada.

Eligible Records

Records must be submitted to the American Jersey Cattle Association no later than July 1 of the contest year. Only first-lactation records are accepted, provided the heifer calves before 30 months of age.

Records must have a minimum Data Collection Rating (DCR) of 90 to qualify.

Rankings are determined by adjusting the records for age and month of calving using USDA regional factors (305-day, 2x, m.e.), then applying the USDA component values for Net Merit dollars.

AMERICAN MILKING SHORTHORN SOCIETY DEFINITIONS FOR BREEDER AND EXHIBITOR:

Breeder - The breeder of the animal shall be the name of the person, farm, or partnership, as it appears on the registry certificate (owner of dam at time of service). Where a herd is registered in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), but the prefix remains the same, all entries may be considered as exhibits of one breeder. When animals are bred in partnership or syndicates, each unique entity is considered a unique breeder.

Bred and Owned - To be eligible for Bred & Owned awards, one of the breeders must be listed as one of the current owners. Where a herd is registered in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), and the one of those members is an owner, that entry may be considered as Bred and Owned. If a breeder was part of a partnership and remains as an owner then the animal is considered Bred and Owned.

Exhibitor - The exhibitor must be an owner of the animal and appear on the registry certificate. Where a herd is registered or bred in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), and where Herd Unit requirements are met, all entries may be considered as a single exhibitor. When animals are owned in partnership or syndicate, each unique entity is considered a unique exhibitor.

Herd Unit - If a herd is registered in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), of the herd owner, these persons may be considered one breeder/exhibitor. To be considered part of the Herd Unit all animals must be: A) Housed in the same location (same premise ID). B) Under the exclusive care and management of the herd owner. C) Health tested and production tested with the owner's herd - All animals listed on the same forms with the same herd code. D) When the "Herd Unit" option is elected, all animals owned and exhibited by any member of the unit must be shown under the "Herd Unit" entry - A list of names of all individuals owning animals included in the "herd Unit" and the name of the "herd Unit" must be submitted with the application for entry and will be considered as one exhibitor throughout the show.

Partner or Syndicate owned animals are not included under a Herd Unit.

Any uncertainty, or dispute, with the above definitions should be addressed with the AMSS Executive Secretary (or AMSS Representative present at the show) prior to the show. Their decision will be final.

38. Disqualification's for color beyond the proceeding include animals that are brindled with diffuse black hairs on locations other than the edge of the ear, edge of the muzzle or nape of shoulder, or animals that have more than one location with black hair on other parts of the body.
39. "Black Hair" for purpose of these rules refers to hair that is black the entire length of the shaft to the root.
40. Minimal black hair described as "ticking" around the edge of the ears, edge of the muzzle and shoulder nape is permissible.

46. Any animal the Executive Secretary examines and finds to have one or multiple black spots, irregardless of eligibility for showing, are required to be blood/DNA typed for parental identification to maintain registry status.

Only the Executive Secretary of the American Milking Shorthorn Society shall have authority in determining eligibility of animals under the Black Hair Rule. The Executive Secretary is required to be in attendance at all accredited National Shows.

49. If the Executive Secretary is requested by a party other than the owner to examine an animal for any reason, the person requesting the examination must first post a \$100 bond with the Executive Secretary.
50. If the animal examined is found to be ineligible under above rules 1, 2 or 5 or eligible under rule 6 pending parental identification, the bond is returned to the person requesting the examination.
